**Paralyzes** the legs and wings of some insects not hitherto effectively controlled by spraying. Insects so paralyzed that cannot fly or walk do not recover and the U. S. Department of Agriculture considers them dead. (See U. S. Treasury Specification #311). Actual tests have shown effective control of the following stubborn insects:

Red Spider	Mealy Bugs	Leaf Hoppers
White Fly	Leaf Roller	Aphids (Plant Lice)
Green Fly	Rose Chafer	Colo. Potato Beetle
Mexican Bean Beetle	Cucumber Beetles	Cabbage Worms
Japanese Beetle	Harlequin Cabbage Bug	Thrip
Spanish Fly (Blister Beetle)	Coddling Moth	Flea Beetle
Tomato Worms		and certain others.

### THIS IS THE ONE

If you could sell or use only one insecticide for Vegetables, Flowers and Fruits, This IS The One.

Highly concentrated, this new, safe, super-powerful liquid spray presents the wonder working properties of Rotenone and Derris in a new patented form; Activated, Stabilized, Scientifically Compounded, and far more Effective.

In addition to Killing insects by outside contact and as a stomach poison it also **Permanently** Paralyzes the legs and wings of some insects not hitherto effectively controlled by spraying.

Dilutions vary from 1 part in 200 to 1 part in 1,000.

Triple Kill is harmless to persons or animals if spilled on skin and may be sprayed on edible fruits and vegetables without leaving a dangerous poison residue.

No soap or spreader necessary; mixes readily with either hard or soft water.

## THIS IS THE ONE

If you could sell or use only one insecticide for Vegetables, Flowers and Fruits, This IS The One.

Highly concentrated, this new, safe, super-powerful liquid spray presents the wonder working properties of Rotenone and Derris in a new patented form; Activated, Stabilized, Scientifically Compounded, and far more Effective.

[In addition to Killing insects by outside contact and as a stomach poison it also Permanently Paralyzes the legs and wings of some insects not hitherto effectively controlled by spraying. Insects so paralyzed that cannot fly or walk do not recover and the U. S. Department of Agriculture considers them dead. (See U. S. Treasury Specification #311). Actual tests have shown effective control of the following stubborn insects:

Red Spider	Mealy Bugs	Leaf Hoppers
White Fly	Leaf Roller	Aphids (Plant Lice)
Green Fly	Rose Chafer	Colo. Potato Beetle
Mexican Bean Beetle	Cucumber Beetles	Cabbage Worms
Japanese Beetle	Harlequin Cabbage Bug	Thrip
Spanish Fly (Blister Beetle)	Coddling Moth	Flea Beetle
Tomato Worms		and certain others.

Dilutions vary from 1 part in 200 to 1 part in 1,000.

Triple Kill is harmless to persons or animals if spilled on skin and may be sprayed on edible fruits and vegetables without leaving a dangerous poison residue.

No soap or spreader necessary; mixes readily with either hard or soft water.
